Leadership Training Program

The founding societies believe that it is not sufficient to provide a "traditional" training program. Our professions are called to a higher accountability. Just as social responsibility and environmental stewardship are foundations for our professions, they are also woven into the Emerging Leaders Alliance.

Participants in this program are selected by the member societies based upon the potential for leadership in the engineering and scientific community.

Leaders Discussion Board

An online leadership forum has been created that provides resources and discussion boards for participants. Visit the Emerging Leaders Online Leadership Forum. (Access is restricted to participants only.)

2008 Capstone Program

This conference will take place from October 9-11, 2008, at the Westin Convention Center Hotel located in Pittsburgh, Pennsylvania. View the complete Program Schedule or learn more about the Instructors.

Keynote speakers:
John Goodish  
*Executive Vice President and Chief Operating Officer*  
United States Steel Corporation

Robert Kumpf  
*Chief Administrative Officer and Vice President*  
Bayer MaterialScience

Chris Hendrickson  
*Co-Director, Green Design Institute*  
Carnegie Mellon University

Training modules include:
Risk Assessment  
Critical Thinking and Problem Solving  
Team Building and Coaching  
Social Responsibility and Ethics

Leaders Voice

Views from today’s leaders about the future of our profession, the professional and our leaders, including International Perspectives on the 21st Century Engineering Education Webcast, from Norman Fortenberry, Director of CASEE
