

Dr. Prasad Dhurjati is a Professor of Chemical & Biomolecular Engineering at the University of Delaware with joint appointments in the Departments of Mathematical Sciences and Biological Sciences. His research specialization is in Biotechnology, Artificial Intelligence and Systems Biology/Medicine. After obtaining a Ph. D in chemical engineering from Purdue University in 1982, he joined the faculty of the University of Delaware. He is the author of 100+ research publications in leading journals with 2700+ citations. In 1986, he was awarded the National Science Foundation Presidential

Young Investigator Award by President Ronald Reagan. He has mentored twenty Doctoral and Masters students, twenty postdoctoral and research fellows and over a hundred undergraduate research theses. In 1988-89, he was a visiting scientist at the Pasteur Institute in Paris. He has also been a visiting professor at the University of Lyon, France, VNIT, Nagpur, India and University of Toronto, Canada. In 2004, he was elected a Fellow of the American Institute of Medical and Biological Engineering. He is currently (2016-2017) the President of the Faculty Senate of the University of Delaware.
