Krystal,

Can you add to next news of the week?

Thank you,
Eric

Subject: INFO: Library support for CHEG
Date: March 24, 2020 at 8:27:44 AM EDT
To: Eric Furst <furst@udel.edu>

Good morning Dr. Furst,

Please share this reminder with your faculty and graduate students that the library is here to help.

As the liaison to Chemical and Biomolecular Engineering, I am available to assist with access to the online collection and respond to students’ research questions. Course instructors using Canvas might also consider embedding a research guide (see these instructions or this video tutorial).

While the library buildings are closed, many of our resources are available online. Please visit the Course Continuity page on the library site for quick links and FAQs. The library continues to offer reference service via Ask the Library. Faculty and students can also reach out to me directly via email at slanteri@udel.edu.

I hope this week is off to a good start (as good as it can be) as we continue to adjust our workflows. Please do not hesitate to contact me with any questions. I’m here to assist you!

Kind regards,
Sabine
